1

First activate your desired subscription in the menu item **"My Subscription"**.

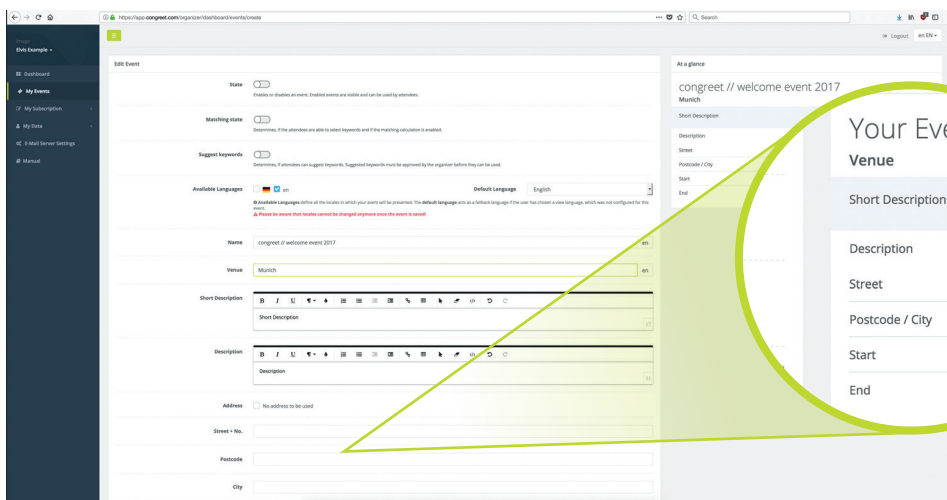

In the next step you will receive credits for invitations via the sub-item **"Buy Credits"**.

2

Now create your first event.

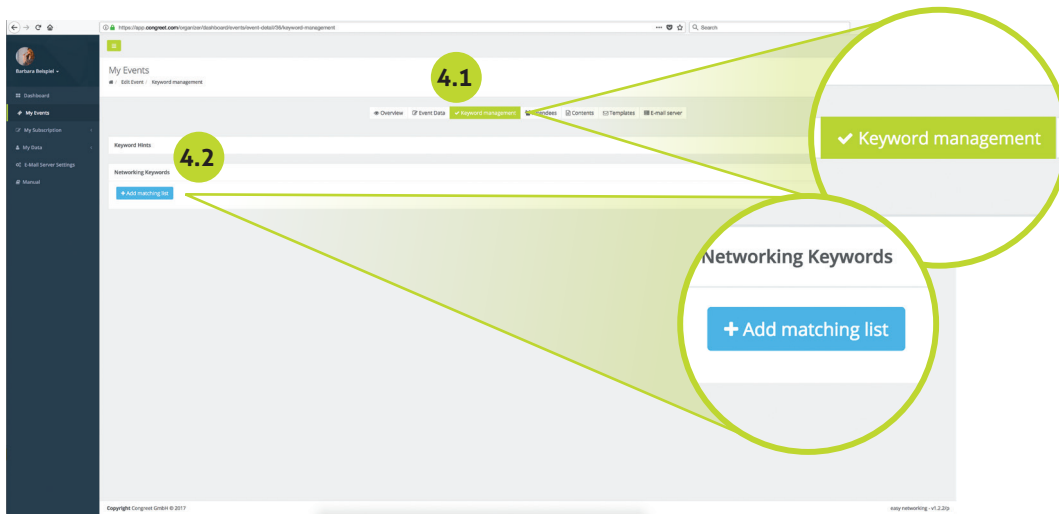

TIP:
all data can be changed again at any time.

3

First, create your event with the basic data.

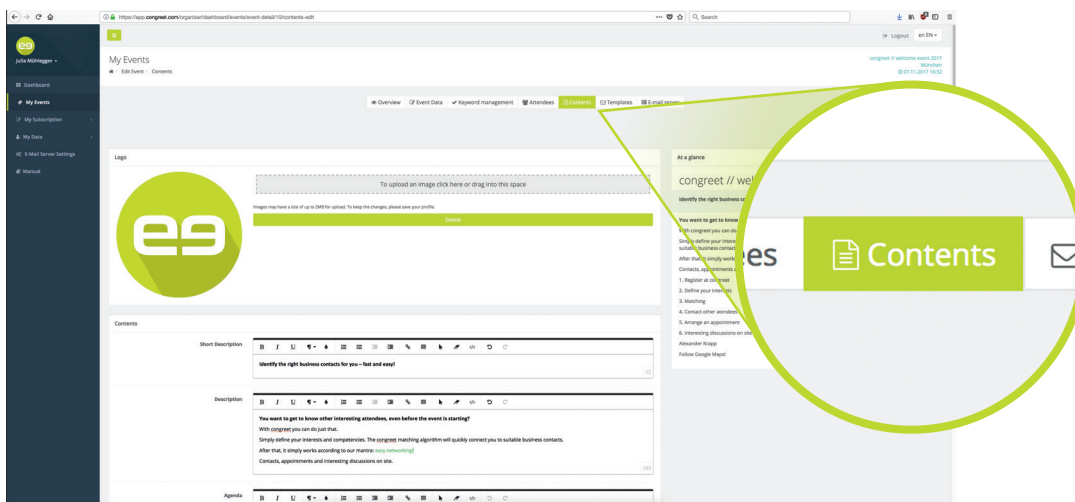

Provide information about the title, location, description and date.

4

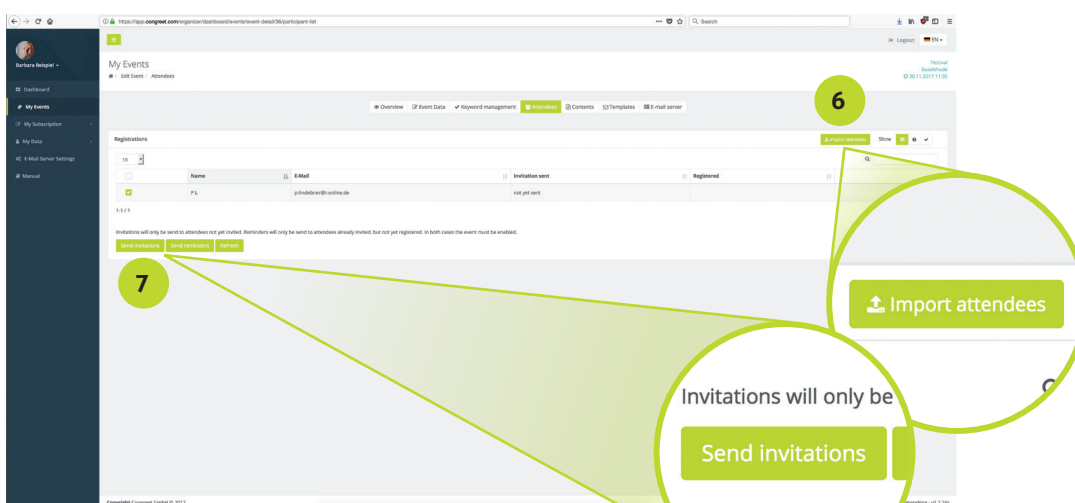

Define keywords that fit your audience and save your matching lists.

If you need tips on keywords, please feel free to email us.

5

Personalize your event with your logo and add more information such as agenda, speakers and directions to your event.

6

Finally, invite your participants. You can import subscriber lists via CSV or enter the data manually.

7

Now select all participants in the list and send the first invitations. This also starts the term of your subscription.
